

## Printer's Plan Road Map

An aerial photograph of a paved road winding through a park-like area with trees in autumn. The road has white lane markings and is flanked by sidewalks and trees with yellow and orange leaves. The text 'PRINTREACH' is overlaid in white, with a teal arrowhead pointing upwards between the 'E' and 'A' characters.

PRINTREACH

Printer's Plan Road Map

Now

- SQL Database

## Next

- QuickBooks Online Integration
- Job Link - History Reorder
- Multi-Factor Authentication

- Data Analytics & Information Dashboard
- Scheduled and Recurring Payments
- Printer's Plan AI

# Roadmap

## NOW

- **Printer's Plan SQL Database**  
Upgrade the Printer's Plan database to SQL

## NEXT

- **QuickBooks Online Integration**
- **Job Link - History Reorder**
- **API Auto Installer**  
Improve the process of installing and updating the Printer's Plan API
- **500 Hours - Shape the Future**  
500 committed hours of development as voted by the Printer's Plan community at the Users Summit
- **Multi-Factor Authentication**
- **Rest API**  
Updated Printer's Plan API designed to work with the SQL database

## LATER

- **Quote, Order, and Invoice Lists**
- **Debit Card Workflow**  
Additional support for debit card payments
- **Business Automation**  
Scheduled and triggered automation system
- **Scheduled and Recurring Payments**
- **Email Tracking**
- **Digital Asset Management**
- **Information Dashboard**
- **Email Template Customization**
- **Data Analytics & Information Dashboard**  
Customizable dashboard to display information and analyze meaningful data points
- **HBR Calculator**  
Enter data to generate a suggested hourly budgeted rate for a service
- **Multi-Line Purchase Order**  
Allow multiple services for the same vendor on a PO
- **SSO Integration with Print Reach Central**  
SSO Integration between Printer's Plan and Print Reach Central
- **MyOrderDesk - Printer's Plan Payment**  
Integration Payments from a MyOrderDesk Job will automatically flow into Printer's Plan
- **Stored Payment Method Report**  
Report of Customers with a stored payment method
- **Printer's Plan AI**  
Research use cases for AI features

## COMPLETED

- **Database Performance Improvements**  
Speed up searching and normal operations
- **Time Zone Setting**  
Configure the Printer's Plan Time Zone
- **Large Format Enhancements**  
Allow large format printing with dynamic material size and layout alerts on size changes
- **Additional Improvements and Fixes**  
Read more about them in our release notes
